

# FM-550 Bero

A play of elegance

# FM-550 Bero

**The elegant back in combination with the gracefully sloping armrests gives FM-550 Bero a light, floating character.**

The soft, cozy cushions and the flowing language of design are a constant invitation to relax. The FM-550's surprising, unique functionality is not something you notice at first glance.

It is equipped with a generous leg rest that easily extends and retracts electronically, with seat and backrest simultaneously slipping into the ergonomically correct relaxing position.

Hidden in the back of FM-550, but offering additional comfort, the headrest supports are easy to fold down, to take up the respective armrest cushions and transform them into neck cushions.

## FM-550

---

With its two individually adjustable seats, not only can the sitting positions be adjusted independently – with its features, FM-550 Bero offers pronounced relax comfort as its play of form and function create a genuine dream sofa.

FM-550 is available in both leather and fabric.

The features are easy to operate via remote control or app.
