

FM-300 Lime

Movement for the home

FM-300 Lime

Good design is always done by hand, from the first concept to the finishing touches – and with FM-300 Lime, this hits the nail on the head.

Charming in its appearance, the sofa is a comfortable seating option in which to relax and watch a movie, read attentively or day-dream off into the distance.

Inspired by the function of being able to adjust both sides individually, FM-300 Lime looks like a cozy seat from a movie theater, or perhaps a uniquely comfortable sunbed for lounging on a distant, dreamy beach.
